Escrow Consulting Group Team Leader

Mr. Jahangir Mahmood: The principal of the escrow consulting group is a qualified chartered accountant, CPA and MBA (finance) with 8+ years diverse experience in finance.

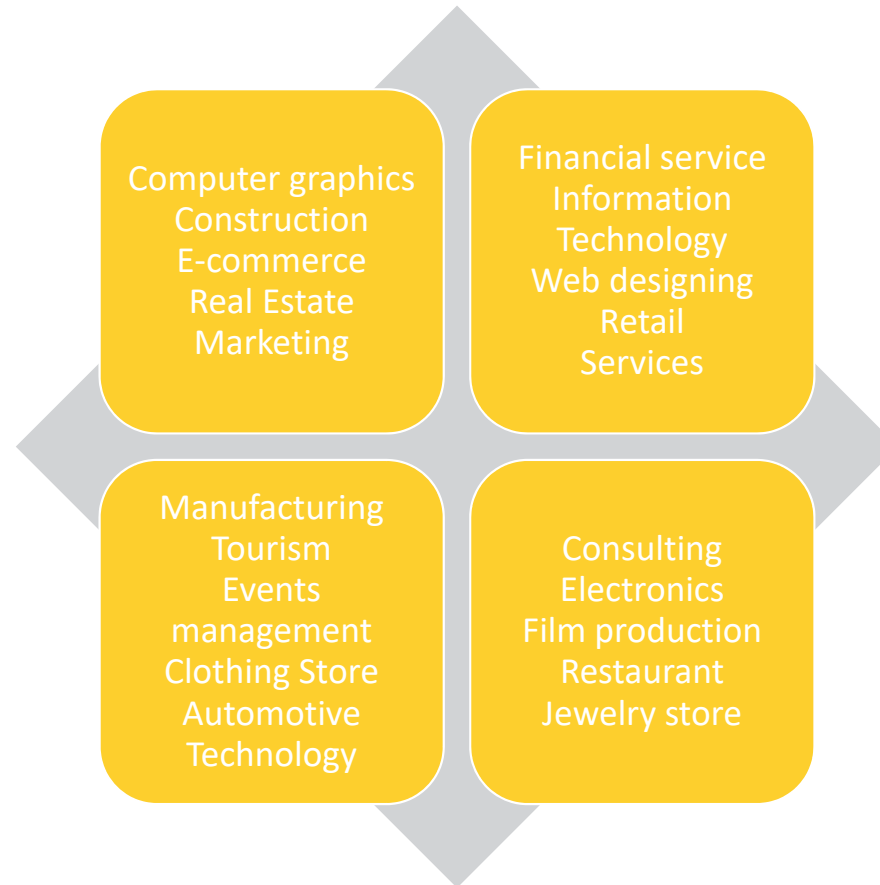

He is Quickbooks online certified advisor and Xero certified advisor.

He has extensive experience of working with US based companies of all sizes.

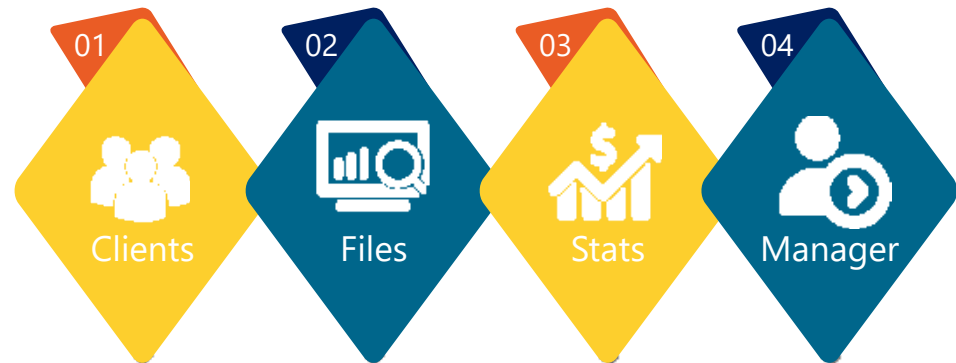

Escrow Consulting Group

Industries we have worked with

Escrow Consulting Group Workflow Process

Cloud based accounting platforms:

Client provides accountant access to their cloud based accounting platform.

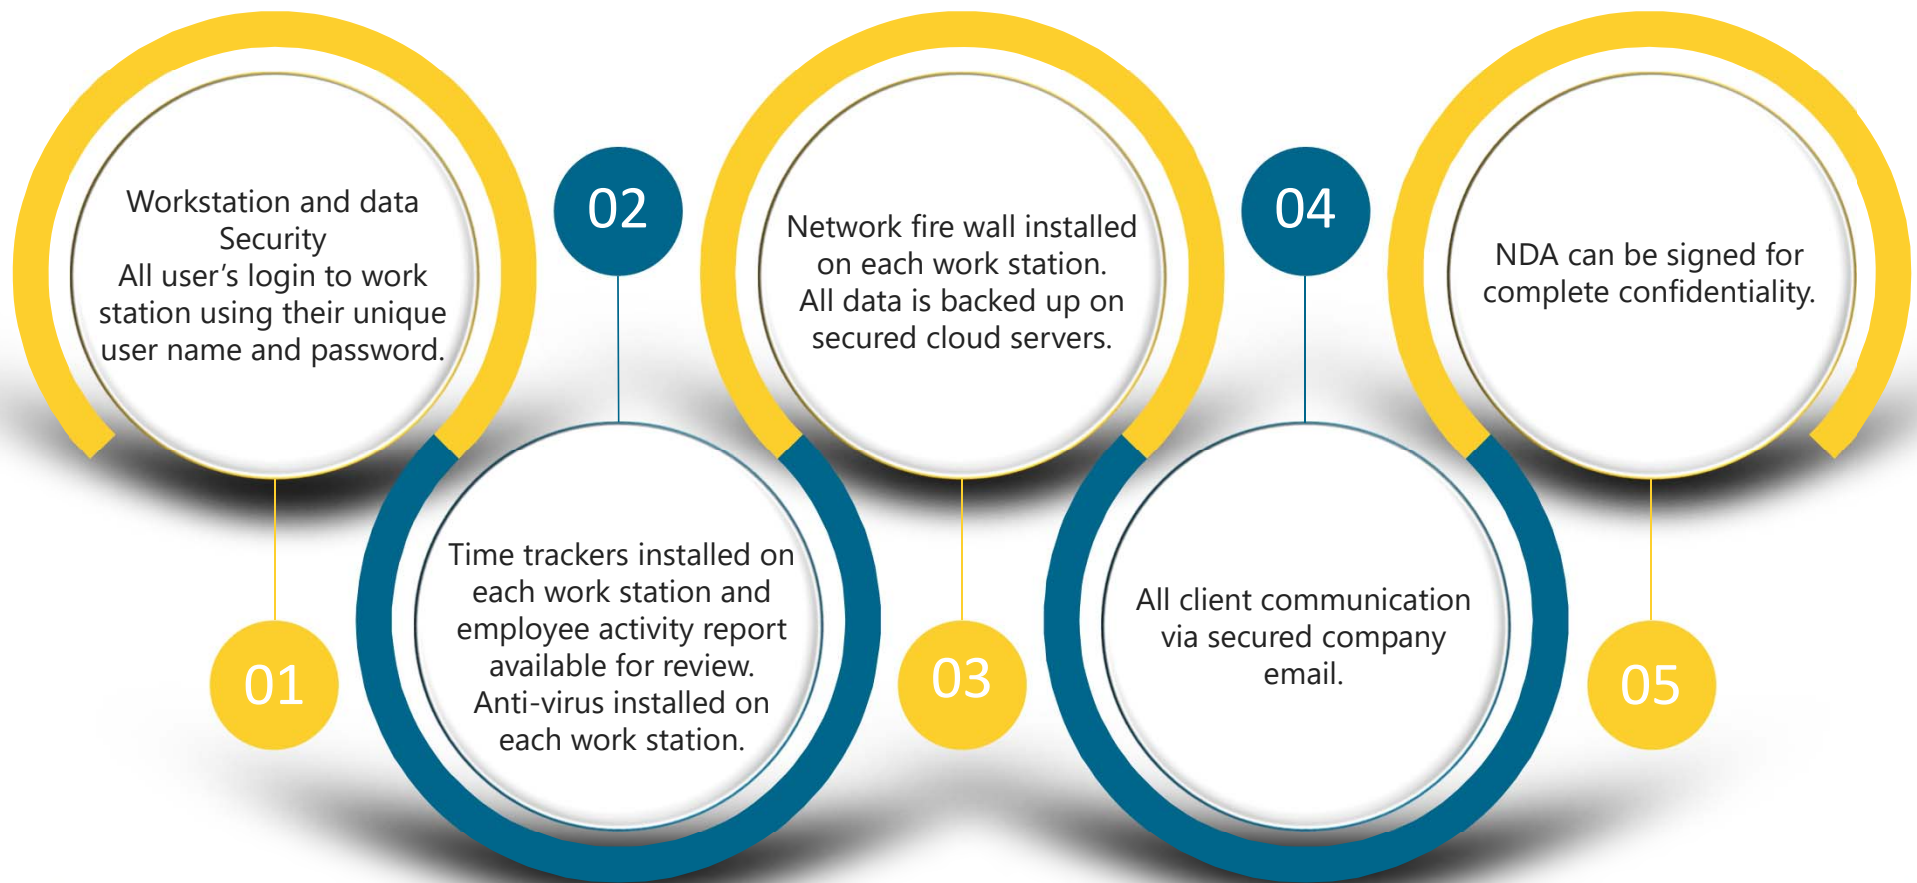

In case of desktop based packages the company file is shared via file collaboration tools such as Qbox and is updated real time or we can work on back up of the company file and send it after updating it.

Client shares its bank statements, invoices, bills and receipts via file hosting server such as Google drive, Drop box etc.

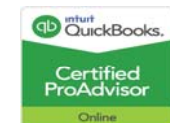

All of the data is checked by a manager.

After checking the data tasks are assigned to a staff member for processing data. The manager periodically checks the work. It is also reviewed on completion before delivering it to the client.

Escrow Consulting Group Testimonials

Remote Face

"Excellent again! Very happy to work with him. We will use his services for all our ongoing business bookkeeping. Really reliable and highly recommended. If you want your accountant to be available literally anytime when you need him, than go hire him. Trust me you will love this guy.."

Xamaze Tutoring

"Great experience, selected as our designated provider assisting with xero accounting software."

Tecprotocol

"Great experience, selected as our designated provider assisting with xero accounting software"

Think Print

"Great value for money. A real professional. Woth every dollar I paid. I will be using him for future bookkeeping accounting assignments."
